

WARNING!

YOUR MOTORCYCLE IS AT RISK!

**IF YOU HAVE NOT USED ADDITIONAL SECURITY TO LOCK YOUR MOTORCYCLE
IT MAKES IT ATTRACTIVE TO THIEVES AND VULNERABLE TO THEFT**

Thieves are actively targeting motorcycles, scooters and mopeds that have not been fitted with additional security such as a chain / D lock / cable lock as without these measures your machine offers little resistance to theft.

Steering locks alone are easily overcome by criminals and will not prevent your bike from being stolen. This type of crime has risen dramatically across the country - everywhere is at risk.

This type of crime has risen dramatically across the country - everywhere is at risk.

**PLEASE HELP US TO KEEP YOU AND YOUR BIKE SAFE BY USING ADDITIONAL LOCKS TO
SECURE YOUR MOTORCYCLE WHEN PARKED.**

Forensic security marking schemes such as the Official MASTER Scheme (masterscheme.org) help the Police by providing indelible proof of ownership and when combined with a high quality lock will provide your motorcycle with the most effective protection against theft.

DON'T LET THE CRIMINALS GET AWAY WITH YOUR MOTORCYCLE!

LOCK IT! TAG IT! or... LOSE IT!

**DO NOT MAKE THE DANGEROUS
ASSUMPTION YOU WILL NOT BE A VICTIM**

Motorcycle Security Top Tip

Protect yourself and your bike:

- Use a good quality lock and always park in conspicuous well lit areas
- Think about varying your Parking Routine.

Look out for other bikers:

- If you see someone trying to steal a bike call 999
- If you see damage to a bike or see suspicious activity call 101
- If you have intelligence on motorcycle crime call Crime Stoppers on 0800 555 1111.

Safer Parking - Use well lit areas and cover your bike.

Anchors - When available use them to further secure your bike.

Disc Lock - Use a good one and make sure you make it as inaccessible as possible.

Chains - If possible keep your lock off the ground and secured out of the way.
